MANHOOD How Destroyed, Hew Restored.

Dr. N. S. PENDERY, Physician and Surgeon,

No. 24 1-2 E. Washington St.

IN CONNECTION WITH THE GENERAL PRACTICE Dye-Stuffs, of Medicine, I treat by a new and reliable medium, and with the happiest results, all forms of diseases of the Nervous, Seminal and Urinary and Sexual systems. Young men with hollow cheeks and pallid countenance, telling in fearful language the silent working of some formidable disease undermining your constitution, memory and reason, hurrying you to a premature death, reflect while reason holds sway and avail yourself of a treatment that dissipates the slightest disease, and cures the harrassing weakness and other causes of serious difficulty and perpetual annoyance.

Spermatorrhea, Seminal Weakness, Noctornal Emissions, Sexual Debility, Impotency, Effects of Self-Abuse, and their results—Inability to Consummate the Marriage

Contract, Mental and Physical Prostration, Epilepsy, Insanity and Consumption. Like a staunch murderer, steady to his purpose, Presses him close through every lane of life, Nor misses once the track, but presses on,

Till forced at last to the tremendous verge, And at once he sinks." Likewise, I will guarantee a radical cure of Syphilis, Gonoribæa and Gleet, in all their stages, entirely removing from the blood the last spark of these terrible diseases that so gradually burn up the fountain of life. Diseases and Conditions Peculiar to

Females. The beauty and extreme delicacy of the female organ ization, to say nothing of its physiological characteristics, are sufficient indications that it is subject to forms of disease and modifications peculiar to itself. The physician of the present day does not encounter any more forms of attrine diseases than did the physician of

fifty years ago; but owing to the present social condition of woman, her diseases are increased to frequency, and to the truth of this assertion the melancholy deaths by consumption bear ample witness. At the American Dispensary we treat by a new method, and with the happiest results, Prolapsus Uteri, (falling of the womb,) Eruptions of the

yellowish, dirty green pallor of the surface; Emansio Messium, or absent Menstruction; Amenorrhea, or Retention of the Mauses; Dysmenorrhea, a painful and difficult flow of the Menses; Menorrhagia, or profuse Men-struction; Leuchorrhea, or excessive and altered secre-tion of the mucus—generally white, or nearly coloress and transparent. Reader, I have given you a class of diseases that are met with in Females of all ages, whether married or un-

which space will not admit an elucidation. I omit it for PURE CHEMICALS, the council chamber, adding but one more disease to this list, and that is a formidable one-Ulceration of the body of the Uterus. If you are afflicted with organic weakness, or any as-

semblage of morbid phenomena of this character, you have no time to spare, but at once apply for med cal aid. If too late to arrest the disease, it is at least possible to palliate the symptoms, and thus smoothe the path way to an untimely grave. In a majority of instances these diseases have made considerable progress before the patient becomes alarm-In some cases an emaciation is the first indication

that attracts the attention of the patient's friends. And here, reader, let me call your earnest attention to the fearful significance of the word "wasting." It not only constitutes the leading feature, but the earliest and mest ominous symptoms of Consumption, examples of which are invariably met with in young ladies who are gifted with high intellectual endowments, refined accomp'ishments, and eyes flashing with unnatural brilliancy-not regarding these indications as being those of inciplent disease, but those of personal charms. True, alas! the poet sings-

"Consumptions' cheek ne'er looks more pure. And lovely, than when past all core, And yet that bloom, so fresh so still, Has lent its fleeting aid to kill, And speaks, to those who waich its bue. Of s'ckness, death and suffering too; Though who, just viewing anght so fair, Could dream that death was there?"
